OPERABLE UNIT 1 (881 HILLSIDE) IM/IRA 881 FOOTING DRAIN ANALYTICAL DATA
RLB 075 93

Ref R L Benedetti ltr RLB 033 93 to R J Schassburger OU 1 (881 Hillside)
IM/IRA Collection Configuration January 19 1993

Attached is a summary of statistics for the 881 footing drain The data is preliminary however it indicates that the 881 footing drain water may not contain the contaminants originally expected Post 1990 data was used for this analysis (January 1990 through October 1991) Analysis of the data collected prior to 1990 is scheduled to begin in March 1993 The combined pre 1990 and post 1990 data will be correlated with the analytical data used for design and construction of the OU 1 IM/IRA The final summary of this data will be forwarded to DOE RFO at completion

Additionally instrumentation has recently been installed in Building 891 in order to monitor the french drain collection well CW 001 pump status The instrumentation will be monitored on a daily basis and may be used to estimate CW 001 production rates

If you have any questions please contact Mark Burmeister at extension 5891
