RE: OU 1 IM/IRA

Dear Mr. Schassburger:

Your April 14, 1993, letter provided EPA and CDH with some of the requested information regarding the surface water flow meters that are to be installed as part of the OU 1 French Drain monitoring system. In that letter you state that \$200,000 was budgeted for the design and installation of these flow meters for fiscal year 1993. Your letter did not specify the cost to date for these flow meters, as was requested by the agencies. As a result, DOE is again requested to submit the cost to date, including an itemized breakout of all procurement, design, and installation costs. We also request that you submit the monitoring station design work that was recently completed by the EG&G Facility Operations Management (FOM) group.

Your response to this matter is expected to be submitted to EPA and CDH within ten working days of receipt of this letter. If you have any questions regarding these matters, please contact either Gary Kleeman at 294-1071 or Joe Schieffelin at 692-3356.

Sincerely,

Martin Hestmark
Martin Hestmark, EPA
Manager
Rocky Flats Project
