Review of 881 Hillside Restoration, Phase 1-B, Quality Assurance Project Plan

J. M. Kersch, Associate General Manager  
Environmental Restoration & Waste Management  
EG&G Rocky Flats, Inc.

In response to your request for comments on the 881 Hillside Restoration, Phase 1-B Quality Assurance Project Plan, I have the following comments:

1. The 881 Phase 1-B Quality Assurance (QA) project plan is not necessary if the existing Support Operations QA manual and departmental implementing procedures are utilized, and the phase 1-B QA plan is limited to construction, erection, and installation activities.
2. Additionally, discussions with the Environmental Protection Agency Region VIII QA Officer, Jim Luey, indicated that only one Quality Assurance Project Plan was needed per project or for each sampling and analysis plan.

*Thomas E. Fulow*
