RE Summary of May 13 and 24 1994 Meetings Aspects of OU 1 CMS/FS

Dear Mr Schassburger

The Colorado Department of Health Hazardous Materials and Waste Management Division (the Division) has reviewed your letter of May 31 1994 summarizing discussions during the above referenced meeting The Division wishes to clarify several items presented in this letter

The purpose of the May 13 1994 meeting was for DOE to present and discuss the material in TM 11 after the agencies had a chance to initially screen the document but before comments were developed Any issues discussed during this informal meeting must be considered preliminary and should in no way be considered the Division formal comments on TM 11

While DOE briefly presented schedule issues and logic ties between the CMS/FS and PP these issues were not on the agenda for this meeting The Division staff person in attendance specifically stated he was not involved in the programmatic CMS/FS working group and any decision would have to be made by the Division's working group representative Subsequently contrary to the statements in DOE's May 31 1994 letter no agreement was reached on DOE's proposed logic ties between the CMS/FS and PP

Additionally the Division would like to clarify that concurrence with DOE's decision not to add bioremediation as an alternative to be carried forward into the DAA is contingent on sufficient supplemental information being submitted to support DOE's rationale

If you have any questions regarding these matters please call Jeff Swanson of my staff at 692 3416

Sincerely

Gary W Baughman Chief
