**TRANSMITTAL OF QUARTERLY STATUS REPORT FOR OPERABLE UNITS ONE AND TWO INTERIM
MEASURE/INTERIM REMEDIAL ACTION (IM/IRA) TREATMENT FACILITIES - AMP-144-95**

Action: Forward copies of the Quarterly Status Report to the Colorado Department of Public Health &
Environment and the Environmental Protection Agency.

Rocky Mountain Remediation Services (RMRS) is pleased to deliver the attached copy of the Quarterly Status Report for work package 12579, (Operable Unit One and Operable Unit Two Interim Measure/Interim Remedial Action Treatment Facilities) in fulfillment of the scheduled milestone due October 31, 1995. Work package 12579 is scoped to perform operations, maintenance and reporting activities for the Consolidated Water Treatment Plant. Due to consolidation of the treatment systems, information for OU1 and OU2 will be combined into one single report. Once the Sitewide Treatment Facility is complete; operations data, OU1 data and OU2 data will be contained within one single report. In addition the format of the former reports was altered to make the consolidated report more concise.

If there is any additional information you would like to have incorporated into the existing format for next quarter's report or clarification of the current report, please do not hesitate to contact J. R. (Russ) Cirillo on extension 5876 or digital page 4011.
