Dear Mr. Clark:

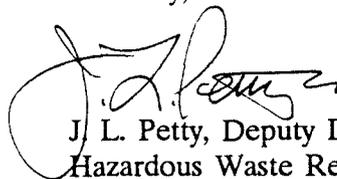

Department of Energy Document Review of Proposed Interim Measures/Interim Remedial Action Plan and Decision Document: 903 Pad, Mound, and East Trenches Areas, Operable Unit 2, Rocky Flats Plant

The subject document was reviewed at the request of Mr. John Sands, EM-442, Department of Energy Headquarters. The review was conducted by a panel consisting of a hydrologist, a quality assurance specialist, an ecologist, a regulatory compliance specialist, and a project manager. Editorial comments have not generally been included.

The document conforms to Environmental Protection Agency regulatory requirements and guidance documents; however, there are certain areas that are likely to raise regulatory concern. These and other suggestions are detailed in the attached comments.

Questions regarding review comments should be directed to R. J. Rhea (615/435-3118).

Sincerely,

J. L. Petty, Deputy Director
Hazardous Waste Remedial Actions Program
