CORRESPONDENCE SECTION

Operable Unit 2 RFI/RI Report Risk Assessment

Robert Benedetti, Associate General Manager
Environmental Restoration Management
EG&G Rocky Flats, Inc.

This is in response to your June 16, 1993, correspondence (93-RF-6983) concerning the options for the Operable Unit 2 RFI/RI Report risk assessment. You requested DOE acceptance of your proposed "option 1" by June 30, 1993.

Your proposed "Option 1" puts us at risk of the Draft RFI/RI Report being found unacceptable by EPA/CDH which could extend the period of time we are subject to stipulated penalties. This approach is unacceptable without first obtaining resolution with EPA and CDH on the approach for the risk assessment. Therefore, we must first meet and reach agreement with EPA/CDH. If we cannot reach agreement with EPA/CDH on an acceptable approach, then you must be prepared to support dispute resolution under the IAG.

Once resolution of the approach is made, you will need to document the impact to the schedule so that we can request schedule relief from EPA/CDH.

If you have any questions, please contact Scott Grace of my staff at extension 7199.

James K. Hartman
Assistant Manager for Transition
and Environmental Restoration
