FINAL APPROVAL ON DISCONTINUATION OF COLLECTION AT SW 61 AND SW 132 AS PART OF OPERABLE UNIT 2 SOUTH WALNUT CREEK INTERIM MEASURE/INTERIM REMEDIAL ACTION - SGS 083 95

Action Request Environmental Protection Agency and the Colorado Department of Public Health and Environment be notified of discontinuation of water collection

The Department of Energy requested in May 1994 that EG&G Rocky Flats Inc discontinue collection of water at SW 61 and SW 132 but maintain the capability to resume collection This decision was based on confirmatory samples taken by the Environmental Protection Agency and the Colorado Department of Public Health and Environment but final approval was pending receipt of the radionuclide analysis EG&G Rocky Flats Inc requests that the Department of Energy notify the Environmental Protection Agency and the Colorado Department of Public Health and Environment of the permanent discontinuation of collection of water from SW 61 and SW 132 and that Rocky Flats Environmental Technology Site will no longer maintain the capability to resume collection of water

Once the Operable Unit 2 Field Treatment Unit and the Operable Unit 1 Field Treatment Unit are consolidated for construction of the Sitewide Treatment Facility there will no longer be the capability of collecting water from SW 61 and SW 132 In conjunction with the relocation of the Operable Unit 2 Field Treatment Unit the existing piping will be disconnected

If you have any questions or require additional information concerning the above information please call Jeff Bray at extension 8533 or Pete Laurin at extension 8702
