Discontinuation of Collection at SW 61 SW 132 as Park of OU 2 Walnut Creek Interim Measure/Interim Remedial Action

Sue Stiger Associate General Manager
Environmental Restoration Management
EG&G Rocky Flats Inc

Hollowell

By letter dated April 28 1994 (copy attached) and sent to us May 5 1994 the Environmental Protection Agency (EPA) and Colorado Department of Health (CDH) have authorized us to discontinue collection of water at SW 61 and SW 132 as part of the Operable Unit No 2 (OU 2) Walnut Creek Surface Water Interim Measure/Interim Remedial Action (IM/IRA) We are therefore instructing you to discontinue collection of water at SW 61 and SW 132 but continue to collect water at SW 59 as per the IM/IRA Decision Document

The EPA and CDH have taken this action based upon their confirmatory sampling at these locations They have taken this action prior to receipt of radionuclide analysis Until such time that they receive and notify us concerning the radionuclide analysis we should maintain the capability to resume collection of water at SW 61 and SW 132

The EPA and CDH require continued quarterly sampling and analysis of radionuclides metals and volatile organic compounds (VOC) The quarterly reports are to include this information for transmittal to EPA and CDH

If you have any questions please contact Scott Grace at extension 7199
