Re: Operable Unit 3
Areas of Concern

Dear Mr. Schassburger:

EPA is in receipt of your April 9, 1993, letter regarding the Operable Unit 3 Areas of Concern (AOC) document. We believe it accurately reflects the discussion between EPA, DOE, and its contractors with the exception of your reference in the third paragraph to our confirmation of the "Area of Concern". EPA is still not satisfied that adequate justification has been given for eliminating certain data sets from consideration in defining this area. Our letter to you dated February 1, 1993, states, "...we believe that DOE must present the criteria it used to eliminate and include data in the isocontouring process." The three data sets considered in the AOC document are limited in spatial extent and use only the Colorado Department of Health sampling technique. This fact deserves discussion, particularly in establishing a case for eliminating other data sets.

Your letter also does not indicate when DOE intends to submit the revised AOC document for subsequent EPA and CDH review. We expect a re-submittal of this document no later than April 30, 1993.

Sincerely,

Martin Hestmark, Manager
Rocky Flats Project
