SEMI-ANNUAL REPORT FOR THE JEFFERSON COUNTY REMEDY LANDS - JEE-0058-92

The enclosed report summarizes the revegetation activities conducted on the Jefferson County Remedy Lands during 1991 and the follow-up plans for 1992. The Remedy Land activities are directed by the 1985 Settlement Agreement, McKay vs. U.S. DOE has agreed to provide Jefferson County with a report on Remedy Land activities on a semi-annual basis. This report should be transmitted to the following individuals:

- Ms. M. L. Tucker, Assistant Jefferson County Attorney
- Mr. Stanton LeBreche, Jefferson County Open Space
- Ms. Jean Jacobus, Jefferson County Attorney's Office
- Ms. Bonnie Lavelle, EPA, Region VIII
- Mr. Joe Schieffelin, CDH, Hazardous Materials and Waste Management Division

The ability to schedule future tilling operations, as required by the Settlement Agreement, is limited by lack of revegetation success on areas tilled in 1985 and 1986. Previous reports to Jefferson County have outlined historically poor revegetation results. The Settlement Agreement states that tilling of the alternate set of strips shall not begin until the first set is successfully reestablished in native plant species. An aggressive revegetation program was initiated in 1991 and will continue. Results of the OU 3 Remedial Investigation field work scheduled for 1992 will also be used to plan future activities on the Remedy Lands.

If you should have questions regarding this report, please contact M. Guillaume at extension 4291 of the Remediation Programs Division.
