Re: Work Stoppage, Operable Unit 3

Dear Mr. Hartman and Ms. Sowinski:

It is my understanding that, in accordance with Part 24 of the Interagency Agreement, the Dispute Resolution Committee has concurred with EPA's request to stop work on specific portions of the baseline risk assessment for Operable Unit 3. Consequently, the work stoppage is effective as of July 23, 1993, the date of our original request. Work will resume on the affected portions once the related issues have been resolved. Please contact me at (303) 294-1720 if further discussions on this matter are required.

Sincerely,

Robert L. Duprey, Director  
Hazardous Waste Management Division
