Discussion and/or Comments:

Enclosed are seven (7) copies of "Responses to Environmental Protection Agency Comments on the Draft RCRA Facility Investigation/Remedial Investigation Report for Operable Unit 3." These comment responses were developed in response to the formal comments received from the Environmental Protection Agency (EPA) on February 21, 1996.

Rocky Mountain Remediation Services, L.L.C. (RMRS) recommends that the comment responses be transmitted to the Department of Energy/Rocky Flats Field Office (DOE/RFFO) for subsequent submittal to EPA. As requested by Mr. David George with DOE/RFFO, in the March 5, 1996 meeting between DOE/RFFO, Kaiser-Hill, L.L.C., and RMRS personnel, the time period in the Operable Unit 3 project schedule for review of responses to comments by the regulatory agencies was reduced from ten to five working days. To maintain this accelerated schedule, final comments on these responses should be provided to RMRS by April 15, 1996. It is therefore recommended that EPA provide final comments to DOE/RFFO by April 12, 1996.

not possible

Five of the seven document copies should be provided to DOE/RFFO. The enclosed draft letter is suggested for the transmittal to DOE/RFFO.

Please contact Mark Buddy at extension 4128 or Tracey Spence at 4322 if you have any questions.
