87-RF-3300

Mr. Ray Printz, Director
Jefferson County Open Space Department
18301 West 10th Avenue, Suite 100
Golden, CO 80401

Dear Ray,

This letter presents an update of the status of the remedial action program on Jefferson County Open Space land east of the Rocky Flats Plant. Several actions have been completed since publication of my previous status report on January 15, 1987.

Native grasses seeded in the north parcel in Section 7 in the fall of 1986 did not germinate and the area was covered with annual grasses and weeds in the early spring of 1987. Since these materials do not offer permanent ground cover, it was decided to cultivate the entire parcel once again. Cultivation with resultant destruction of undesirable grasses and weeds has been accomplished and a cover crop of sorghum has been planted. Another attempt at planting native grasses is scheduled for late fall this year

The other area requiring remedial action, about forty acres in Section 18 between Mower Reservoir and Indiana Street, has been plowed, disked and prepared for planting. Soil samples have been collected from eight locations in this parcel and are being tested for plutonium content. If the plutonium concentrations are below the Colorado State standard of 0.90 pCi/g, the land will be seeded with sorghum in preparation for fall grass planting.
