

TASK 5.2 GROUND WATER MONITORING SYSTEM  
FOR THE SOLAR EVAPORATION SURFACE IMPOUNDMENTS

LIST OF WELLS

1. 13-86
2. 14-86
3. 15-86
4. 16-86
5. 17-86
6. 18-86
7. 20-86
8. 22-86
9. 23-86
10. 24-86
11. 25-86
12. 26-86
13. 27-86
14. 28-86
15. 29-86
16. 30-86
17. 31-86
18. 32-86
19. 33-86
20. 34-86
21. 35-86
22. 36-86

Notes:

- 1) The groundwater monitoring system is described in "Draft Work Plan for Geological and Hydrological Site Characterization", submitted July 21, 1986.
- 2) Well 21-86 was planned as a shallow well. However, bedrock was encountered at approximately 6 inches below ground. Therefore, no well was installed at location 21-86. The drilling log will be maintained as part of the project record.
