Subject: Health & Safety Inoculations
[WBS 750 SITE SPECIFIC HEALTH & SAFETY PLAN
HALLIBURTON NUS ROCKY FLATS DENVER]
RF-HED-92-0188

Dear Mr. Ferrier:

The Solar Evaporation Ponds have received discharges of sanitary sewage at various times in the past. Attached is the most recent report addressing pathogens in the Solar Ponds. This report includes data on the biological activity of the Ponds.

It is requested that EG&G obtain the written recommendations from the Occupational Health Director for the Solar Ponds Project, Dr. Furman, regarding the necessity of gamma globulin or any other inoculations that may be needed by personnel handling Solar Ponds/Pondcrete/Saltcrete materials. These recommendations should be forwarded to the undersigned.

Please contact me if you have any comments or questions.

Sincerely,

HALLIBURTON NUS ENVIRONMENTAL
CORPORATION

John A. Schmidt
Deputy Project Manager
