Attn: Ernie O'Toole

REQUEST FOR EXTENSION ON STATUS - EML-147-93

Ref: J. K. Hartman ltr (00329) to R. L. Benedetti, Graded Approach to Readiness Assessment Status for the Modular Tanks Portion of the Solar Ponds Remediation Project, January 12, 1993

The points raised in the subject letter are all related to the graded readiness review being developed for the ITS diversion project.

The SPRP team has been meeting with its DOE liaison to develop the proper Readiness Assessment Documentation and Agenda. This documentation and agenda address all of the points cited in the subject letter. In a meeting between E. O'Toole (DOE/RFO), D. S. Brown (SPRP), and D. R. Ringle on February 9, 1992, it was agreed that the required documentation and agenda will be completed with the next two weeks and will, thus, provide closure of all items in the letter.

SPRP requests, and E. O'Toole concurred in the referenced meeting, that the response date for the above referenced letter be extended to February 26, 1993. If you have any questions, please contact D. A. Ringle at 966-8603.
