Colorado State Office
Golden Field Office
730 Simms Street
Golden, Colorado 80401

Dear Mr. Carlson:

As part of our obligations as a Natural Resource Trustee for the Rocky Flats Plant, the Department of Energy (DOE) is hereby transmitting copies of two documents for the Trustees' review and comment. These documents are submitted as required by the Trustees memorandum of Understanding to provide for cooperation and sharing of technical expertise among the Trustees and the Environmental Protection Agency (EPA) in integrating and restoring natural resources. These documents are as follows:

- The Draft Proposed Operable Unit 4 (OU 4) Solar Evaporation Ponds Interim Measure/Interim Remedial Action Environmental Assessment Decision Document, and
- The Draft Final Phase II RCRA Facility Investigation/Remedial Investigation (RFI/RI) Work Plan for OU 4 Solar Evaporation Ponds.

Comments on the Work Plan are due by close of business on August 9, 1994. Comments on the Interim Measure/Interim Remedial Action must be received by April 10, 1995. The DOE, Colorado Department of Public Health and Environment (CDPHE), and EPA are currently in the process of an informal dispute in regard to the treatment and disposal of the sludge under the cap. This alternative, that DOE would like to propose, is not included in this draft document. If the CDPHE and EPA concur with the proposed remedial action, a revised "draft" document will be submitted to you.

Please submit your comments directly to me at Rocky Flats, Inc. or fax them to me at 966-4871. If you would like to discuss these documents or any portion of the Solar Ponds remedial action, please contact me at 303-966-7846.

Sincerely,

R. H. Bis
