INTERAGENCY AGREEMENT TABLE SIX MILESTONES FOR OPERABLE UNIT 4
WILL BE MISSED - SGS-165-95

Action: Request Schedule Extension

This letter documents the status of Operable Unit 4 Solar Ponds Interagency Agreement milestones. We project that all Operable Unit 4 Table 6 milestones for Phase I and Phase II, except for the June 9 Draft Responsiveness Summary submittal, will be missed. Performing to the baseline schedule is impossible due to the Department of Energy's decision to re-evaluate and re-establish a baseline and accumulated impacts from Fiscal Year 1995 funding losses. More than a day-for-day slip is expected since the baseline plan is in question; even if the baseline were resumed, considerable time would be required to restart the portions of the program that have been shut down.

EG&G has already provided a draft letter for the Department of Energy to send to the Colorado Department of Public Health and Environment and the Environmental Protection Agency requesting a schedule extension (95-RF-04191). Please transmit that letter to the regulators as soon as possible. If you would like to discuss this issue further, please contact Steve Keith at 966-8541.
