Mr. Max H. Dodson, Director  
Water Management Division  
U.S. Environmental Protection Agency, Region VIII  
99 18th Street, Suite 500  
Denver, Colorado 80202-2405

Dear Mr. Dodson;

The purpose of this letter is to request the extension of approval to bypass water from Terminal Pond C-2 at the Rocky Flats Plant (National Pollutant Discharge Elimination System Permit C-0001333, Discharge Point 007) to the ditch that directs flow around Great Western Reservoir. We request that your Agency's approval for this bypass, which expires on June 30, 1992, be renewed and extended through December 31, 1992.

We request that the extension to discharge to this diversion be granted under the same conditions as in your previous approval (see enclosed letter). While the water levels in Pond C-2 do not pose a threat to dam safety, resumption of discharges from this point may be necessary in the following summer months because of increased precipitation, and during the colder months to prevent ice jams and subsequent ditch overflows from scheduled discharges from Pond A-4.

We would very much appreciate your prompt consideration of our request. If you have any questions, please feel free to call Mr. Tom Lukow of my staff at 966-4561.

Sincerely,

*James K. Hartman*  
James K. Hartman  
Assistant Manager  
for Environmental Management
