Samples from Operable Units for Treatability Studies

Róbert Benedetti, Associate General Manager, ERM, EG&G Rocky Flats, Inc.
Tim G. Hedahl, Associate General Manager, EWM, EG&G Rocky Flats, Inc.

It has come to our attention that samples from Operable Units 5 (Woman Creek) have been collected for conducting treatability studies. These samples were collected without the knowledge of the DOE Operable Unit Manager. Future samples for studies within Operable Units covered by the Environmental Restoration Interagency Agreement should be coordinated with the EG&G and DOE Operable Unit Managers. In addition, any treatability studies from samples taken from IAG Operable Units should be coordinated with the EG&G and DOE Sitewide Treatability Studies contacts.

The DOE Operable Unit Managers for OU5 (Woman Creek) and OU6 (Walnut Creek) are Jen Pepe (extension 2184) and Norma Castaneda (extension 4226), respectively. The DOE contacts for the Sitewide Treatability Studies program are Scott Grace (extension 7199) and Paul Singh (extension 4651).

If you have any questions, please contact Scott Grace of my staff at extension 7199.
