ACCELERATED ACTIONS OPERABLE UNIT 8 FOLLOW-UP – WAF-007-95

Ref: (a) W. A. Fuller ltr, WAF-006-95, to R. R. Sarter, Fiscal Year 1996 Potential Accelerated Cleanup Actions, Scope and Estimates for Operable Unit No. 8, April 26, 1995

Action: None Required

The purpose of this letter is to follow-up on the above referenced letter requesting approval to proceed with the accelerated actions scoped in that document. As you know, the schedules developed for these removal projects called for completion of the removals in Fiscal Year 1996. However, to meet that completion date, work on these removals needed to start in May or June 1995. Unfortunately, due to the recent budget rescission that has impacted the Industrial Area, funds are no longer available to pursue these accelerated actions.

Since the engineering package required to obtain a Davis-Bacon determination has already been submitted for review, EG&G Rocky Flats, Inc. will proceed with the Davis-Bacon determinations for these three removals. However, additional work on these accelerated actions cannot proceed. As a result, unavoidable schedule slippage will occur.

EG&G Rocky Flats continues to believe in the accelerated action process and the advisability of proceeding with this work, but current and anticipated funding levels will not allow for pursuit of these actions, in Fiscal Year 1995. Additionally, the proposed Fiscal Year 1996 target funding levels may not be sufficient to perform this work in Fiscal Year 1996.

If you have any questions regarding this matter, feel free to contact me at extension 8759 or digital page 5480. We are anxious to complete these important risk reduction activities and regret that present budgets make that impossible.
