RECEIVED  
FEDERAL BUREAU OF INVESTIGATION

RE: Draft Phase I RFI/RI Workplan, Original Process Waste Lines (OPWL), OU 9; June, 1990

Dear Mr. Lockhart,

The Colorado Department of Health, Hazardous Materials and Waste Management Division (the Division), has reviewed the above referenced document prepared by DOE and it's prime operating contractor EG&G. It is our understanding that this document will be substantially changed when it is submitted in "Draft Final" form. For this reason, the Division has chosen to make only abbreviated comments to this version of the document. The comments are attached.

Based upon staff level communication between the State and EG&G, the Division is planning to review and comment on each section of the new version of the Workplan as it is put into a semi-final form. This early input and involvement will, hopefully, avoid a large number of comments to the final version and allow for timely approval.

The Environmental Protection Agency will be forwarding their comments on this draft version of the OU 9 RFI/RI Workplan under separate cover in the near future.
