Action: Need relevant comments at earliest convenience

This letter constitutes the formal transmittal of the Draft Final Industrial Area Interim Measure/Interim Remedial Action Decision Document which was delivered to your office under separate cover on August 18, 1994. At this time five copies were delivered to your office for additional review and comment. This review period is coincident with the public comment period which is scheduled to begin on August 29, 1994. Additionally, at your request, copies were delivered to the regulatory agencies on August 18, 1994, five days prior to the start of the public comment period.

As you know the schedule for this project is extremely aggressive. To facilitate the incorporation of any additional comments that you may have, we would appreciate receiving them at your earliest possible convenience.

If you have any questions or need additional information, please call me at extension 8519.
