CERTIFICATION OF SOLAR POND SLUDGE TANKS - SRK-008-94		
ENCLOSED IS THE CERTIFICATION PACKAGE (INCLUDING CERTIFICATION, ASSESSMENT, & CONSTRUCTION-STATUS "AS-BUILT" DRAWINGS FOR THE TANKS BEING CERTIFIED) FOR THE FIRST SET OF SLUDGE TANKS, AS REQUIRED BY 6 CCR 1007-3 SECTION 265 192 AND THE CDH'S DECEMBER 22, 1993 APPROVAL OF INTERIM STATUS FOR THE TANKS. THIS CERTIFICATION PACKAGE MUST BE SUBMITTED TO THE CDH PRIOR TO SLUDGE TRANSFER INTO THE TANKS. A DRAFT TRANSMITTAL LETTER IS ALSO ENCLOSED FOR YOUR CONVENIENCE.		
BECAUSE OF THE HIGH PRIORITY DOE HAS PLACED ON ACCELERATING THE SCHEDULE FOR THE SLUDGE TRANSFER, WE HAVE ALREADY PROVIDED THE CDH STAFF WITH AN INFORMAL COPY OF THE CERTIFICATION. TO INCREASE THE ACCELERATION OF THE SCHEDULE, WE WILL BE PREPARING CERTIFICATIONS IN SEVERAL PACKAGES, SO THE FIRST TANKS ARE AVAILABLE FOR USE WITHOUT WAITING FOR THE LAST TANKS TO BE READY. THERE WILL BE, THEREFORE, SEVERAL TRANSMITTALS TO CDH NECESSARY TO COMPLETE THE CERTIFICATION ACTIVITY, AND EACH PACKAGE WILL INCLUDE THE SAME FORMAT AND CONTENT AS THIS FIRST PACKAGE. TO REDUCE THE ADMINISTRATIVE WORK LOAD ON DOE, WE PLAN TO TRANSMIT SUBSEQUENT CERTIFICATION PACKAGES DIRECTLY TO CDH FROM OUR SPP OFFICE. THIS PLAN IS REFLECTED IN THE DRAFT TRANSMITTAL LETTER.		
IF YOU HAVE FURTHER DIRECTION OR WOULD LIKE TO DISCUSS THE PROJECT FURTHER, PLEASE CALL ME AT 966-8541 OR JOE MELLEN AT 966-8607.

CERTIFICATION OF SOLAR POND SLUDGE TANKS - SRK-008-94

Enclosed is the certification package (including certification, assessment, & construction-status "as-built" drawings for the tanks being certified) for the first set of sludge tanks, as required by 6 CCR 1007-3 Section 265 192 and the CDH's December 22, 1993 approval of interim status for the tanks. This certification package must be submitted to the CDH prior to sludge transfer into the tanks. A draft transmittal letter is also enclosed for your convenience.

Because of the high priority DOE has placed on accelerating the schedule for the sludge transfer, we have already provided the CDH staff with an informal copy of the certification. To increase the acceleration of the schedule, we will be preparing certifications in several packages, so the first tanks are available for use without waiting for the last tanks to be ready. There will be, therefore, several transmittals to CDH necessary to complete the certification activity, and each package will include the same format and content as this first package. To reduce the administrative work load on DOE, we plan to transmit subsequent certification packages directly to CDH from our SPP office. This plan is reflected in the draft transmittal letter.

If you have further direction or would like to discuss the project further, please call me at 966-8541 or Joe Mellen at 966-8607.

Subject PROFESSIONAL ENGINEER INDEPENDENT CERTIFICATION OF SLUDGE STORAGE TANK

Enclosed is the first certification package for the sludge storage tanks on Rocky Flats Plant 750 Pad, Unit 25. We submit this certification to fulfill the requirements of 6 CCR 1007-3 Section 265.192 and 100.12(d) and condition number four in the Division's approval of interim status for the tanks. The total tank farm will be certified in several groups, which allows us to begin using a certified group of tanks while completing certification of subsequent groups of tanks. Your staff has completed one inspection of the tanks and is welcome to perform additional inspections at your convenience.

We plan to begin transferring sludge into these first tanks within a couple days of this submittal of certification. To facilitate the Division's activities, EG&G Rocky Flats has already provided an informal copy of this certification to your staff. Subsequent submittals will be made directly to you by the EG&G Rocky Flats, Inc., Solar Ponds Project office.

With this submittal of certification, we understand that DOE may now proceed with the sludge transfer to certified tanks at our convenience. If you would like to discuss the certification further, please call me.
