RE: OUI1 Revised Field Sampling Plan - Final

Dear Mr. Schassburger,

The Colorado Department of Health, Hazardous Materials and Waste Management Division (the Division), has reviewed the most recent submittal of the above referenced document, dated June 13, 1994. The Division finds the responsiveness summary (delivered May 13, 1994) and the incorporation of these responses into this revision of the OUI1 FSP to have adequately addressed Division and EPA comments contained in our April 27, 1994 correspondence. The Division is therefore providing full approval of this FSP.

We are aware of the recent evidence that has shown the areal extent of OUI1 to be larger than originally thought. The increased surface soil and subsurface borehole/monitoring well sample locations mandated by this finding, and hand-delivered to the agencies on June 14, 1994, must be accurately included in the forthcoming addendum as a condition to the approval of this FSP.

If you have any questions regarding these matters, please call Dave Norbury at 692-3415.

Sincerely,
Joe Schassburger for
Gary W. Baughman, Chief
Facilities Section
Hazardous Waste Control Program
