Mr. Gary Baughman  
Hazardous Waste Facilities Unit Leader  
Colorado Department of Health  
4300 Cherry Creek Drive South  
Denver, Colorado 80222-1530

Gentlemen:

Enclosed is the final revised Field Sampling Plan for Operable Unit 11 for review and approval. Comments from the response summary have been incorporated into this revision. An expedited review and approval is requested. The Department of Energy already has the support contractors on board and waiting to do the work. We anticipate starting field work on June 15, 1994.

The FSP only includes the work previously proposed. The recent finding of photographs which show spray areas outside of the existing IHSS 168 boundaries will be addressed in an addendum to the FSP. Additional wells and surface soil samples are being considered to characterize the additional area. The addendum will be forthcoming within the next week or two.

We look forward to continued cooperative efforts which will continue to improve the overall performance of our environmental restoration effort. Any specific questions relative to the rescoping effort should be directed to Jen Pepe at 966-2184.

Sincerely,

*Jessie Roberson*  
Jessie Roberson  
Acting Assistant Manager for  
Environmental Restoration
