Gentlemen:

Your November 19, 1992, letter regarding Operable Unit (OU) No. 14 (Radioactive Sites) withheld approval of the Final OU-14 RCRA Facility Investigation/Remedial Investigation (RFI/RI) Work Plan. Your approval was withheld pending additional information on the Industrial Area Interim Measure/Interim Remedial Action (IM/IRA). As discussed with your staff in the September 23, 1993, meeting, non-intrusive sampling is planned to be performed in the near future, in conjunction with the other Industrial Area OU's 8, 9, 10, 12, 13 and 14. The non-intrusive activities planned include radiological surface surveys, surficial soil sampling, vertical profile sampling and soil gas surveys.

The non-intrusive activities will not be coordinated with the proposed Industrial Area IM/IRA due to possible re-scoping. The proposed linkage would be that data generated from the non-intrusive sampling activities would provide a basis for planning and implementing the IM/IRA.

Because we plan to begin the sampling in the near future, we would like to get approval of the proposed Final RFI/RI Work Plan. If you have any questions, please contact Scott Grace of my staff at 966-7199.

Sincerely,

James K. Hartman
