DOCUMENTATION OF REMOVAL OF IHSS 212 FROM OPERABLE UNIT NO.15 - JEE-0372-92

The purpose of this letter is to inform the Department of Energy/Rocky Flats Office (DOE/RFO) that documentation of the removal of Individual Hazardous Substance Site No. 212 (IHSS 212) from Operable Unit No. 15 (OU 15) should be obtained from the Colorado Department of Health (CDH) and U. S. Environmental Protection Agency (EPA) per the Rocky Flats Interagency Agreement (IAG).

On April 15 and 20, 1992, meetings were conducted to discuss the scope of the Phase I RCRA Facilities Investigation/Remedial Investigation (RFI/RI) Work Plan for OU 15 with regard to the IAG. Representatives from CDH, EPA, DOE/ RFO, EG&G Rocky Flats and The S. M. Stoller Corporation attended the scoping meetings. During the scoping meeting conducted on April 20, 1992, CDH (the lead agency with regard to the IAG) indicated that IHSS 212 or Resource Conservation and Recovery Act (RCRA) Unit 63 will not be included in the OU 15 investigation. CDH's decision was based on the change in status of IHSS 212 or RCRA Unit 63 from a RCRA Interim Status Unit that would be closed to an operational drum storage area listed on the RCRA Part B Permit for the Rocky Flats Plant.

Since IHSS 212 is listed in the IAG as a part of OU 15, written documentation of the removal of IHSS 212 from OU 15 should be obtained from CDH and EPA. The removal of IHSS 212 from OU 15 may be performed by CDH and EPA pursuant to Part 32, Paragraph 191 Additional Work or Modification to Work of the IAG. In order to facilitate this action, it may be necessary for DOE/RFO to request that CDH and EPA approve a Modification to Work of the IAG with regard to the removal of IHSS 212 from OU 15.

If you have questions or require additional information, please contact D. L. Schubbe of Remediation Programs at extension 8709.

J. E. Evered, Director
Environmental Management
