Thomas M. Vernon, M.D.  
Executive Director

Mr. Robert M Nelson, Jr., Manager  
Department of Energy  
Rocky Flats Area Office  
P.O. Box 928  
Golden, CO 80402-0928

Dear Mr. Nelson,

The Colorado Department of Health, Hazardous Materials and Waste Management Division ("the Division") has received your request to move the chemical fume hood from the Bench Scale Treatment Unit 32; The request to move the hood was based on the facility's desire to alleviate the flow of traffic within Building 881, Room 131 C where Unit 32 is located.

The Division approves the request to move the fume hood from its current position to a location at the side of Room 131C. The Division is presently reviewing the closure plan for Unit 32. After review is complete and the final closure plan is approved, the facility may dispose of the hood according to the closure plan requirements. However, until final closure plan approval, the chemical fume hood must remain within Room 131 C.

If you have any questions on this matter or on any other aspect of the Unit 32 Closure Plan, please call George Dancik at 331-4842.

Sincerely,

Gary W. Baughman

Unit Leader
