RE: RFLMA Contact Record 2010-04

Dear Mr. Surovchak:

The Colorado Department of Public Health and Environment has reviewed RFLMA Contact Record 2010-04, which proposes changes to the locations and evaluation protocols for the surface water POCs. Our review finds that the contact record accurately describes these RFLMA modifications and the process to develop them. This contact record is therefore approved. Region 8 of the Environmental Protection Agency has also reviewed this contact record and concurs with its approval.

This Contact Record does not constitute approval any of the proposed changes to RFLMA Attachment 2. The proposed changes to RFLMA are subject to separate regulatory approval under RFLMA following a public comment period. Responses to comments received during that period may require changes to the proposed modifications and those potential changes may affect elements of this contact record.

Please let me know if you have any questions regarding this approval.

Sincerely,

Carl Spreng
RFLMA Project Coordinator
