Re: Intent to Discharge Rocky Flats Pond B-5

Pre-discharge samples for Pond B-5 were collected on 4/22/09. Discharge of Pond B-5 is expected to begin the week of 5/4/09.

Pond B-5 will be direct-discharged through the outlet to South Walnut Creek through Point of Compliance GS08. The discharge is expected to continue for approximately 14 days, with a total discharge volume of 10 to 12 million gallons.

Pond B-5 pre-discharge analytical data and the final discharge schedule will accompany a subsequent notice; data are expected on or soon after 5/6/09.

Ponds A-4 and C-2 will also be pre-discharge sampled the week of 5/4/09 once A-3 water has been transferred to A-4. A subsequent pre-discharge notification and preliminary discharge schedule will be sent for Ponds A-4 and C-2.

Please contact me if you have questions.
