RE: RFLMA Contact Record 2011-03

Dear Mr. Surovchak:

The Colorado Department of Public Health and Environment (Department) has reviewed RFLMA Contact Record 2011-03, which documents consultation between the Department and the U.S. Department of Energy regarding evaluation of uranium and boron in groundwater at the Original Landfill and the Present Landfill. As stated in this contact record, evaluation of these analytes will subsequently be documented in RFLMA Annual Reports rather than in contact records, unless future consultation becomes necessary.

Please let me know if you have any questions regarding this approval.

Sincerely,

Carl Spreng  
RFLMA Project Coordinator
