RE: RFLMA Contact Record 2013-01 approval

Dear Mr. Surovchak:

The Colorado Department of Public Health and Environment (Department), in coordination with Region 8 of the Environmental Protection Agency (EPA), has reviewed Rocky Flats Legacy Management Agreement (RFLMA) Contact Record 2013-01. This contact record is consistent with consultation with the Department and EPA, which occurred on March 13, 2013. CDPHE has determined that the proposed activity will not result in an unacceptable release or exposure to residual subsurface contamination, and will not damage any component of the remedy. The proposed project also meets the rationale and objectives of the applicable institutional controls. The Department therefore approves Contact Record 2013-01 and the accompanying Soil Disturbance Review Plan for the GS10 Flume Replacement Project.

Please let me know if you have any questions regarding this approval.

Sincerely,

Carl Spreng
RFLMA Project Coordinator
