RE: RFLMA Contact Record 2013-02 approval

Dear Mr. Surovchak:

The Colorado Department of Public Health and Environment (Department), in coordination with Region 8 of the Environmental Protection Agency (EPA), has reviewed Rocky Flats Legacy Management Agreement (RFLMA) Contact Record 2013-02. This contact record describes damage to the cover caused by recent storms, which constitutes a reportable condition. The Department agrees that the initial actions taken to repair the damage meet the objective and rationale of Institutional Control (IC) 6.

This contact record is consistent with consultation with the Department and EPA, which occurred on September 18, 2013. The Department therefore approves Contact Record 2013-02 along with its schedule for a proposed evaluation. That evaluation may result in additional proposed actions being submitted for approval.

Please let me know if you have any questions regarding this approval.

Sincerely,

Carl Spreng  
RFLMA Project Coordinator
