Lakewood, CO 80228-1807

Subject: U.S. Fish and Wildlife Service (USFWS) Rocky Flats Site 2013 Annual
Mitigation Monitoring Report

Dear Ms. Linner:

Enclosed is the annual Preble's Mouse Mitigation Monitoring Report for the Biological Opinions for the Rocky Flats Site (2013 Annual Report, Biological Opinions: ES/LK-6-CO-04-F-012 and ES/LK-6-CO-13-F-008; TAILS 06E24000-2013-F-0068) that is due to USFWS by December 1, 2013. The report contains summaries and photographs of monitoring that the U.S. Department of Energy (DOE) was required to conduct in 2013 for different projects under the Biological Opinion's that DOE received from USFWS. The report is contained on the enclosed DVD. Two copies of the DVD are being provided at this time.

The report is completely electronic (as they have been in the past) because of the large number of monitoring photographs that are included. The report is set up as a website on the DVD. To access the report, put the DVD into the DVD drive on the computer and open up Windows Explorer. Click on the file called "START HERE 2013 USFWS BO Report.htm." Then just click the various sections of the report, as if you were navigating the Internet, to access them. If desired, different sections can be printed.

Please contact me at (720) 377-9682 or scott.surovchak@lm.doe.gov if you have any questions or need additional DVDs. Please send any correspondence to:

U.S. Department of Energy
