RE: RFLMA Contact Record 2014-01 approval

Dear Mr. Surovchak:

The Colorado Department of Public Health and Environment (Department), in coordination with Region 8 of the Environmental Protection Agency (EPA), has reviewed Rocky Flats Legacy Management Agreement (RFLMA) Contact Record 2014-01. This contact record describes a plan to reconfigure the East Trenches Plume Treatment System for air stripper treatment.

This contact record is consistent with consultation with the Department, which occurred on December 5, 2013. The Department also concurs that the proposal to redesign this groundwater treatment system is consistent with the final remedy. The Department therefore approves Contact Record 2014-01 so that engineering designs can be developed and the required equipment procured.

Please let me know if you have any questions regarding this approval.

Sincerely,

Carl Spreng
RFLMA Project Coordinator
