

From: [DOE Office of Legacy Management](#)
Subject: U.S. Department of Energy has posted a new contact record concerning abandoning a groundwater monitoring well to the Rocky Flats Legacy Management website.
Date: Thursday, July 24, 2014 2:13:36 PM

The U.S. Department of Energy has posted [RFLMA CR 2014-07](#), "Abandonment of Sentinel well 88104 at the Rocky Flats Site, Colorado", to the Rocky Flats DOE Legacy Management website. This contact record documents the consultation between the RFLMA Parties that was triggered by the discovery during 2nd quarter 2014 sampling that the well casing is broken.

Contact records may be accessed on the Community Involvement page at http://www.lm.doe.gov/Rocky_Flats/Sites.aspx?view=5.

If you have any difficulty accessing this contact record, or have any other questions, please contact:
