RE: Contact Record 2015-05

Dear Mr. Surovchak,

The Colorado Department of Public Health and Environment (CDPHE), in coordination with Region 8 of the Environmental Protection Agency, has reviewed draft Contact Record 2015-05. This contact record is in response to a recent reportable condition for plutonium at Point of Evaluation SW027. It documents consultation with CDPHE and Region 8 of the Environmental Protection Agency.

Our review has determined that the proposed erosion control methods already installed and those proposed to be installed in the SW027 drainage area are an appropriate response to the reportable condition. These actions are consistent with the conditions in the Rocky Flats Legacy Management Agreement and with the final remedy for the Rocky Flats Site. Contact Record 2015-05 is therefore approved.

Please let me know if you have any questions regarding this approval.

Sincerely,

Carl Spreng
RFLMA Project Coordinator
