Subject: RE: DOE has posted a new contact record to the Rocky Flats Legacy Management website
Date: Thursday, September 17, 2015 2:52:58 PM

The email notification of the posting of contact record CR 2015-08 had an error in the narrative of the e-mail. As described in the contact record, the proposed interim configuration is intended to improve nitrate treatment, not uranium treatment.

Subject: DOE has posted a new contact record to the Rocky Flats Legacy Management website

The U.S. Department of Energy Office of Legacy Management has posted Rocky Flats Legacy Management Agreement (RFLMA) contract record [RFLMA CR 2015-08](#), *Solar Ponds Plume Treatment System Interim Design and Implementation*, to the Rocky Flats Legacy Management website at http://www.lm.doe.gov/Rocky_Flats/ContactRecords.aspx.

[RFLMA CR 2015-08](#) documents the consultation between the RFLMA Parties regarding the evaluation of the proposed SPPTS interim configuration to improve nitrate treatment in groundwater. Results of the interim configuration will inform the consideration and design of a longer-term SPPTS configuration.
