Re: Final Workplan for the  
Control of Radionuclide  
Levels in Water Discharges  
from the Rocky Flats Plant

Dear Mr. Lockhart:

EPA reviewed the final Workplan for the Control of Radionuclide Levels in Water Discharges from the Rocky Flats Plant and the associated Document Review and Comment Record. We find the two documents to be adequate in meeting the objectives set forth in Section XII of the Interagency Agreement Statement of Work and in responding to comments submitted as part of the public comment period. EPA hereby approves the workplan as submitted. We look forward to DOE's submittal of the annual followup reports.

Our point of contact for this document is Bonnie Lavelle,  
(303) 294-1067.

Sincerely,

Martin Hestmark, Manager  
Rocky Flats Project
