IAG Deliverable Documents Transmitted to Natural Resource Trustees

ERD Project Managers

As a result of the May 29, 1992 meeting of the RFP Natural Resource Trustees, the distribution of IAG documents to the technical staff members of the trustees has been modified from the protocol identified in DOE/RFO memoranda ERD:BKT:10228 (December 16, 1991) and ERD:BKT:0314 (January 8, 1992). The attachment to this memoranda specifies the new protocol for distributing IAG documents to the trustees. Note that six copies of IAG deliverable documents are now to be transmitted to the trustees.

All transmittal letters accompanying IAG documents delivered to the trustees should include the date their comments are due to DOE/RFO. This date should be consistent with EPA and CDH review times and comment submittal dates. In addition, all the individuals listed in the Attachment should be copied on the document transmittal letters.

Note that Bob Stewart, U.S. Department of the Interior, should be copied on all correspondence to the U.S. Fish and Wildlife Service. However, IAG documents should not be transmitted to Mr. Stewart. Note that the same applies to Mr. Ron Cattany, Colorado Department of Natural Resources, for all correspondence to the Division of Water Resources, the Division of Wildlife, the Colorado Geological Survey and the Colorado Soil Conservation Board.

Also note that Mr. Dave Weber, Colorado Division of Wildlife, has requested that RFI/RI Work Plans for industrial area OUs not be transmitted. However, Mr. Weber should be copied on transmittal letters for these Work Plans.

Questions regarding this memoranda should be addressed to Bruce Thatcher at extension 3532.
