Public Involvement Support for the Site Wide Environmental Impact Statement

J. M. Kersh, Associate General Manager
Environmental Restoration & Waste Management
EG&G Rocky Flats, Inc.

In order to comply with the the National Environmental Policy Act (NEPA) process for the Site Wide Environmental Impact Statement (SWEIS), we are requesting that EG&G's NEPA Strategy and Communications Group assist us in designing and implementing methods of including the public in our preparation of the SWEIS. Below are three specific ideas that may be a place to begin this process.

1. Assemble a Citizens Review Group to assist Rocky Flats Plant in the review of documents and act as independent advisors on making the SWEIS process accessible to the public.
2. Design a series of workshops to teach members of the public how to make meaningful comments on NEPA documents.
3. Design a vehicle for periodic communication with interested citizens to keep them informed of developments and involved during the SWEIS process.

Please feel free to work with RFO's NEPA staff to generate ideas and devise an overall public involvement strategy. You will of course need to coordinate these activities with the RFO Public Affairs and EG&G Community Relations staffs.
