**RESOURCE CONSERVATION AND RECOVERY ACT (RCRA) CONTINGENCY PLAN  
IMPLEMENTATION REPORT (CPIR) NO. 93-005 - TGH-309-93**

Enclosed is a draft letter to the Colorado Department of Health (CDH) to transmit RCRA CPIR No. 93-005, also enclosed. The report outlines the events associated with the release of contaminated ground water from a test well associated with Operable Unit (OU) No. 2. The RCRA Contingency Plan was implemented as a precautionary measure since analytical data from an associated well indicates a strong possibility that the released material contains levels of hazardous waste constituents.

This report should be delivered to CDH no later than May 11, 1993, as required by 6 CCR 1007-3 Section 265.56(j)(1-7). A release notification to the National Response Center was not required because analytical data was available and a reportable quantity of the hazardous waste constituents was not released.

If you have any questions regarding this matter please call M. C. Broussard at extension 8517, or E. M. Pasic at extension 2297.

RESOURCE CONSERVATION AND RECOVERY ACT (RCRA) CONTINGENCY PLAN  
IMPLEMENTATION REPORT (CPIR) NO. 93-005

Enclosed is RCRA CPIR No. 93-005, which documents the status and information concerning the release of approximately 10 gallons of contaminated ground water originating from a test well under construction as part of a study of ground water contamination in Operable Unit (OU) No. 2.

Your office was notified on April 26, 1993, at 3:30 p.m. that the RCRA Contingency Plan had been implemented. The U. S. Environmental Protection Agency, Region VIII was also notified by facsimile on April 30, 1993. If you have any questions regarding this matter, please contact me at 966-4440, Tom Lukow at 966-4561, or David Grosek at 966-3305.
