Review of Rocky Flats Environmental Restoration MSA FY95 Validation Meetings,  
June 7-9, 1993

Muriel Scarborough, PR-242, HQ

The recently completed FY95 budget validation meetings chaired by Mr. Thad Konopnicki, PR-242, provided us an opportunity to perform a self assessment of our ER validation program. While we believe there have been significant improvements from last year in the development of the ER validation packages, we also believe Rocky Flats can make significant additional improvements and enhancements in future validations. In this regard, we have compiled a list of "lessons learned" from the June 7 -9, 1993, meetings and have established these items as goals for our continuous improvement program. We appreciate the PR-24 Validation Team comments and input and have incorporated the majority of these comments into our lessons learned list. A copy of the validation lessons learned list is attached for your information and perusal.

We also recorded the more significant discussions and PR-242 questions, requests for data and comments. A copy of these meeting notes is provided in attachment 2 for your information and future reference.

Please advise me if we can provide any additional information concerning the validation process, and please extend our appreciation to the validation team for their constructive comments and professionalism

If you have any questions or comments please feel free to contact me at extension 4888 or Peter Sanford of my staff at extension 2762.

Richard J. Schassburger  
Acting Director  
Environmental Restoration Division
