ROCKY FLATS PLANT PUBLIC INFORMATION MEETING Phased Resumption of Plutonium Operations

The U S Department of Energy Rocky Flats Office invites you to an information meeting to discuss the status of phased resumption of plutonium operations at the Rocky Flats Plant. Representatives for the U S Department of Energy and EG&G Rocky Flats, Inc will present information on the progress toward resumption of operations. A question and answer period will follow the presentation.

Plutonium operations were curtailed in November 1989 to make comprehensive safety upgrades at the facility. The U S Department of Energy and EG&G have been working to make improvements at the plant, and have designated a non-production analytical laboratory (Building 559) as the first facility to resume operations this summer.

**WEDNESDAY, MARCH 6, 1991
7PM
THORNTON CITY COUNCIL CHAMBERS
THORNTON CIVIC CENTER
9500 CIVIC CENTER DRIVE
THORNTON**
