Ms. Beth Brainard
Public Affairs Officer
DOE,RFO

IMPLEMENTATION OF ROCKY FLATS PLANT INTERIM COMMUNITY RELATIONS PLAN FOR ENVIRONMENTAL RESTORATION

Enclosed are six copies of the *Rocky Flats Plant Interim Community Relations Plan - Environmental Restoration*, which was developed in response to public comment on the draft Interagency Agreement. Although the interim plan is not a required document, it complies with all requirements for public involvement as presented in the Resource Conservation and Recovery Act, as amended by the Hazardous and Solid Waste Amendments Act, and the Comprehensive Environmental Response, Compensation and Liability Act, as amended by the Superfund Amendments and Reauthorization Act. Further, the plan complies with the applicable requirements of the Colorado Hazardous Waste Act and incorporated the community relations requirements outlined in the Interagency Agreement.

Basically, the interim plan is a condensed version of the proposed final community relations plan already approved by DOE, EPA and CDH. The sections of the interim plan that describe community relations activities are essentially identical to the corresponding sections of the *Draft Rocky Flats Plant Community Relations Plan - Environmental Restoration*. The only differences are that the Boulder Public Library is not listed as an information repository since it is not yet completely established and the references to the administrative record reflect that it is not available at this time.

Also, several appendices from the proposed final plan are not included in the interim plan because they are tied to discussions contained only in the proposed final plan. These appendices are Appendix A (List of Contacts and Interested Parties), Appendix B (IAG List of Rocky Flats Plant Hazardous Substances), Appendix C (Community Interview Plan), Appendix F (List of Acronyms and Glossary of Terms) and Appendix G (References). Appendix D (Information Repositories and Suggested Locations for Public Meetings) and Appendix E (Public Comment Opportunities) appear in both plans.

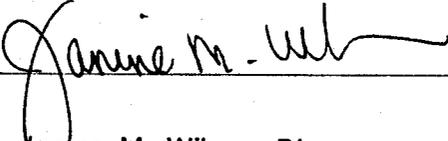

The interim plan was approved verbally by Ms. Sonya Pennock of EPA on Monday, February 11, 1991. Enclosed is a draft letter of transmittal from you to Ms. Pennock and Ms. Ann Lockhart of CDH. The letter informs the agencies that, with concurrence among the agencies, implementation of the interim plan will be announced at the February 21, 1991, public meeting on the Interagency Agreement and the proposed final community relations plan.
