This is in response to your request for a statement regarding the validity/accuracy of monitoring data in the final Draft Rocky Flats Plant (RFP) Site Environmental Report for 1990, which was transmitted to DOE, RFO on May 24, 1991.

Monitoring data contained in the RFP Site Environmental Report for 1990 were compiled by my staff and are based to some extent on information provided by third parties, as well as the application of professional judgment. Based upon inquiry of those individuals immediately responsible for compiling the information, to the best of my knowledge and belief the monitoring data provided in the RFP Site Environmental Report for 1990 are accurate and valid. However, because this is a draft report subject to further review by DOE and my staff, corrections and revisions may become necessary. These corrections and revisions will be identified to DOE, RFO prior to publication of the final report.

If you have any questions regarding the RFP Site Environmental Report for 1990, please contact D. B. Costain at 273-6114, Digital Page 1857, of my Clean Air and Environmental Reporting Staff.
