ISSUES RELATED TO THE INTEGRATED SITE DEMONSTRATION OF PLUTONIUM REMOVAL FROM SOILS TO BE PERFORMED AT THE UNIVERSITY OF NEVADA/RENO - TCG-167-93

As you are aware, Rocky Flats Plant has been involved with the Department of Energy Office of Technology Development EM-50 integrated site demonstration of plutonium removal from soils. This work is to be performed at the University of Nevada/Reno and will include innovative as well as classical minerals processing technologies to remove plutonium and other heavy metals from contaminated soil samples.

Attached is a copy of a letter sent to the University of Nevada/Reno as a result of correspondence received with regard to a bulk soil sample to be taken for the University of Nevada/Reno treatability studies.

Questions and comments can be directed to W. J. Roushey of Environmental Engineering & Technology at extension 6951 or digital page 1711.
