Well Abandonment and Replacement Program Report

N. M. Hutchins, Deputy Associate General Manager  
Environmental Restoration Management  
EG&G Rocky Flats, Inc.

In reference to your letter (93-RF-13785) of November 9, 1993, the Department of Energy, Rocky Flats Office, Environmental Protection Division (EPD) has reviewed the 1993 Well Abandonment and Replacement Program (WARP) draft-final report. EPD believes that the report is well written, and it should be finalized in accordance with your schedule. For future WARP reports: (1) analytical results should be summarized and interpreted for the water samples which are collected prior to each well abandonment; (2) for wells of unknown construction, every attempt should be made to capture historical well construction information during the abandonment process; and (3) Table 1 of future WARP reports should be expanded to include this important information.

If there are any questions, please call me at extension 5915.
